

Membership Development: Watch us GROW!

Hello again!

It's that time of year – SPRING – when we start preparing to meet in our regions for networking and professional development. AFC Members are the driving force behind everything our Association stands for, and we want to help you grow. Not just in numbers, but in opportunities, in leadership, and in knowledge of the issues that relate directly to you as professionals in the Florida College System. That is why we have our Spring Conferences, and why we encourage you to invite everyone from your chapter – members and non-members alike.

Once again, we will have a presence at ALL FIVE region meetings! Each meeting will have a break-out session dedicated to equipping you with real ways to grow your chapter membership!

Region Directors – please make sure you have space for a membership development workshop!

Chapter Presidents and Membership Chairs – be sure to attend our Membership Development Workshop on June 28th at the College of Central Florida. More information to come!

Commission Chairs – connect with me so we can help the chapters grow through commission involvement!
