

MEMBERSHIP DEVELOPMENT COMMITTEE REPORT

Membership Challenge ends October 1, 2018

Membership Goal: Recruit 700 Members

We are on the final stretch as we “Race to the Finish Line” in our efforts to recruit members to fulfill our goal of recruiting more than 700 members throughout the state. All chapters are working to recruit additional members to help us meet our Membership Challenge goal before the October 1, 2018 deadline. Our committee members have made final calls to Membership Chairs throughout the state to see if any additional support is needed. Additionally, chapters are holding activities and events to increase their Memberships which include but not limited to Adjunct and Academic Convocations, New Employee Orientations, Ice Cream Socials and Networking events. We continue to provide chapters with information on membership tools and resources including the presentation from our Membership workshop.

As you receive your updated roster on Chapter Memberships, we look forward to celebrating the individuals that recruited the most members with our 1st, 2nd and 3rd place winners as well as our Chapter winner during our annual conference.

So, power up your engines and stay tuned....
