## **FCSAA Hall of Fame**

We instituted a shift in when and where our Hall of Fame inductions take place beginning with the 2018-2019 class. Each inductee was recognized at his or her individual division banquet; our athletics inductee was able to choose his preferred sport banquet for his induction. We found this to be a much more valuable experience for our inductees as they were able to share their induction with their peers and have the opportunity to speak. The 2018-2019 FCSAA Hall of Fame class is:

Mr. Bill Hamilton, Pensacola State College, Athletics  
Mr. Dallin Kelson, Chipola College, Brain Bowl (Student)  
Mr. Paul Cajka, State College of Florida, Brain Bowl (Student)  
Mr. Cecil Scalf, Northwest Florida State College, Forensics

## **FCSAA Retention and Completion Project**

As part of our strategic plan, the FCSAA is working on a retention and completion project researching the effect involvement in co-curricular and extra-curricular activities has on student retention and graduation. Anecdotally, those of us who work in Student Life and Athletics have seen the positive effect this involvement has, so this project is designed to get quantifiable data behind it. We are starting with the Athletics division because their data is the easiest to capture due to NJCAA requirements.

We worked with five colleges and their athletic directors and registrars as a sample. This group helped us develop the best plan for collecting the data we needed, and we have now collected initial data from 22 of our 25 athletic programs to date. The first reportable year to year data will be reported in Spring 2020. We do not plan to separate out colleges or sports, but rather simply report data on student athletes as a whole across the state. Now that we have developed the plan and implemented it in the Athletics division, we'll be moving on to the academic divisions in 2019-2020. We believe this will ultimately show some very positive data regarding student involvement in activities and athletics.

## **FCSAA Student Learning Outcomes**

### **Athletics**

1. By participating in intercollegiate athletics, students will demonstrate the character traits of respect, teamwork, self-discipline, cooperation and dedication.
2. By participating in intercollegiate athletics, students will learn time management skills while navigating the demands of both their athletic and academic responsibilities.
3. By participating in intercollegiate athletics, students will have the opportunity to give back to their communities through participation in community service projects.
4. By participating in intercollegiate athletics, students will demonstrate academic retention and persistence through success rates and graduation rates.

### **Brain Bowl**

1. By participating in Brain Bowl, students will demonstrate ability to work collaboratively with teammates.
2. By participating in Brain Bowl, students will demonstrate effective listening skills.
3. By participating in Brain Bowl, students will identify personal strengths and areas of improvement in relation to their roles on the team.

### **Forensics**

1. By participating in Forensics, students will be able to describe and adhere to the principles of ethical practice in public speaking, performance, scholarly activity, and citizenship.
2. By participating in Forensics, students will be able to analyze and orally interpret a work of literature in a manner that exhibits strong textual analysis, understanding of authorial intent, and dynamic use of the voice and body.
3. By participating in Forensics, students will be able to research and deliver an original speech with careful attention to source citation, audience analysis, and principles of sound delivery.

### **Model United Nations**

1. By participating in Model United Nations, students will learn the history of the United Nations, its structure, and its role in the contemporary global setting
2. By participating in Model United Nations, students will learn to research and describe the history, geography, culture and politics of an assigned nation.
3. By participating in Model United Nations, students will demonstrate authentically representing the foreign policy positions of the assigned nation.
4. By participating in Model United Nations, students will demonstrate functioning effectively as a team member in a simulated model United Nations environment including the correct application of procedure; the effective use of negotiation and caucusing; the effective use of public speaking skills; and the preparation of position papers and United Nations resolutions using proper format and language.

### **Music**

1. Students will develop and improve their skills by rehearsing and performing as part of an ensemble appropriate to the student's area (Concert Band, Concert Chorus, Jazz Band, Orchestra, Percussion Ensemble, Guitar Ensembles).
  - a. Students will develop musical and technical skills by preparing challenging literature in a short period of time.
  - b. Students will build teamwork skills by working with students from other colleges statewide.
  - c. Students will develop flexibility skills by working with and learning to respond to a new conductor (a faculty member from the host university).
  - d. Student will demonstrate their skills by performing in the closing concerts.
2. Students will develop musical skills by observing and participating in master classes led by university faculty.
  - a. Students will perform solo literature and be taught/coached by faculty.
  - b. Students will learn to apply musical and technical concepts as taught by the faculty.
3. Students participating in the Student Artist Competition will learn to perform solo literature in a competition/audition situation.
  - a. Students will learn to prepare repertoire meeting specific requirements of content, level, and length.
  - b. Students will learn how to present themselves and perform effectively in a competition/audition situation.
  - c. Students will learn how to handle the pressure of a competition/audition situation.

### **Publications**

1. By participating in Student Publications, students will learn to professionally interview, research and write a basic news article.
2. By participating in Student Publications, students will learn to work as a team to create, edit, produce and distribute, either electronically or physically, a newspaper and/or literary magazine.
3. By participating in Student Publications, students will develop time management skills as they endeavor to meet deadlines and cover multiple events that may not fit into their established academic class schedule.

### **Student Government**

1. By participating in Student Government, students will learn to research and track a potential legislation through the House and Senate processes.
2. By participating in Student Government, students will learn the tenets of ethical leadership.

3. By participating in Student Government, students will demonstrate a basic understanding of skills necessary to manage groups, including but not limited to meeting management, member recruitment, retention, motivation, keeping historical documents, budgeting, and effective communication skills.
4. By participating in Student Government, students will learn about service to their community and how to become more civically engaged.

### **Theatre**

1. By participating in the Theatre division, students will learn to collaborate with others to present a stage production.
2. By participating in the Theatre division, students will learn to speak clearly for stage purposes.
3. By participating in the Theatre division, students will learn to synthesize information into a performance that contributes to the production. (Actors synthesize information given to them by the director, the text, and from their own imaginations. Crew members synthesize information given to them by the Director, the Technical Director, and the text.)
4. By participating in the Theatre division, students will learn to communicate effectively through verbal and nonverbal forms.
